***Reader's Digest* Subscribers' Alert**

Since 1928, APH has provided *Reader's Digest*® in braille at no charge to subscribers. For your information, the magazine recently decided to combine the December and January issues and to combine the June and July issues.

If you know of anyone, of any age, who is blind or visually impaired and would like a free subscription to *Reader's Digest* in braille or on cassette, please ask them to call 800/223-1839 and ask for Magazine Services. Free subscriptions to *Newsweek*® on cassette are also available.

APH President Receives Award

APH congratulates our President Dr. Tuck Tinsley who recently received the VisionServe Alliance 2009 Excellence in Leadership Award. This honor reflects his outstanding guidance and development of the American Printing House for the Blind. "His executive leadership there over more than 20 years has led to major growth and development, benefitting the entire industry," said Les Stocker, President of the Braille Institute.

The VisionServe Alliance is an organization made up of private not-for-profit agency executives. The mission of the alliance is to represent, network and advocate, focusing upon public policy, education, improvement of services and professional growth, for organizations that serve people with blindness or visual impairment and their clients.

Science Poster Feedback

APH is considering adopting commercially available classroom science posters to make them accessible to tactile readers. The posters, in their current presentation, are already ideal for low vision students. Each poster would be adapted with a permanently-affixed clear braille/tactile overlay. Posters under consideration include the human skeleton, eye, heart, ear, digestive system, skin, etc. For a full list of possibilities, visit http://www.chartstudio.com/secondary-phase/human-anatomy-posters.html

We would like to hear from Teachers of the Visually Impaired with regard to the following. 1) the need for tactile classroom science posters and 2) the types of posters most needed. Please email your thoughts/ideas/comments to Karen Poppe, Tactile Graphics Project Leader, at kpoppe@aph.org by December 15. Thank you!

Field Evaluators Needed!

APH is working collaboratively with Quantum Simulations who has previously worked with us to develop, test, and bring to the classroom tutoring systems that are based on artificial intelligence (AI). APH is assisting Quantum Simulations with a new research endeavor by seeking field evaluators for the world's first example of accessible AI-based software for mathematics education. We would like to ask for your help by reviewing this accessible prototype and giving them feedback. This involves using the prototype briefly and then completing an online survey. The entire review process takes only 15-20 minutes. This will provide much-needed information from the teachers of students who are blind and/or visually impaired which will inform project decisions. Your participation will help to ensure that the result is of the highest quality before the student evaluation phase of the project.

You can access the prototype at: http://review.quantum-services.com/accessible_demo.php

After using the software, please give us your feedback and suggestions by completing the survey at: http://www.surveymonkey.com/s.aspx?sm=seubAqTdAKhWDtsQ4_2fxXqg_3d_3d

For more information on the educational technology used in this project, please visit http://www.quantumsimulations.com

Greetings from APH President Tuck Tinsley

I'm excited to introduce an extensively revised *Daily Living Catalog* that combines several previous catalogs into one convenient publication.

This catalog includes products from the previous edition of the *Daily Living Catalog,* as well as from the now-discontinued APH *Family Life* and *Bookstore* catalogs. It contains hundreds of products for families, students, and adults.

For over 150 years, APH has been helping blind and visually impaired people of all ages learn, grow, and achieve independence. Our commitment includes identifying needs, then designing, testing, and manufacturing products to meet those needs.

Please feel free to contact us with any product ideas you may have. We hope to hear from you soon.

Sincerely,

Tuck Tinsley III, Ed.D., President

General Information

Service Since 1858

Since 1858 the American Printing House for the Blind (APH) has been creating unique products for people who are visually impaired, blind, or deafblind. APH is a nonprofit organization. We are the oldest company in the United States manufacturing products for blind people and are the largest organization of our kind in the world. In 2008, we celebrated 150 years of service.

Product Information and Ordering on the Web

Please visit our online shopping site at **http://shop.aph.org**. You can browse and search for APH products, then order using a credit card.

Prices and Types of Funds Accepted

All items in this catalog can be purchased with regular funds, such as checks or credit cards. Most items can also be purchased with Federal Quota funds through an Ex Officio Trustee (see *page 102* for more information). ***Prices are subject to change without notice.***

Multiply Disabled Persons

Many products in this catalog are appropriate for children and adults with multiple disabilities, including deafblindness.

Rolling Into Place™

Although *Rolling Into Place* is an interactive storybook intended primarily for children with visual impairments, any young child can enjoy its unique, fun design. As the Velcro® ball is rolled to its final "surprise" destination, important hand skills and basic directional concepts are learned and reinforced. The book's simultaneous visual, tactile, and auditory feedback help the child attend to the path traveled by the ball. Also included are an assortment of interactive Velcro face pieces and an accompanying Author's Letter detailing suggested activities.

WARNING: Choking Hazard — Small Parts. Not intended for children ages 5 and under without adult supervision.

***Rolling Into Place*: 1-08450-00.....$68.00**

Rolling Right Along Construction Kit™

This Kit allows teachers and parents to construct books similar to APH's *Rolling Into Place* (above), an interactive storybook. Using provided panels, pathways, and accessory items, self-designed books can be tailored to the interests and needs of a particular child with visual impairments or blindness. The materials are accompanied by a User's Guide with story suggestions, tips for adding tactile embellishments, and sample book layouts.

1-08451-00.....$65.00

WARNING: Choking Hazard — Small Parts. Not intended for children ages 5 and under without adult supervision.

Lots of Dots: Learning My ABC's

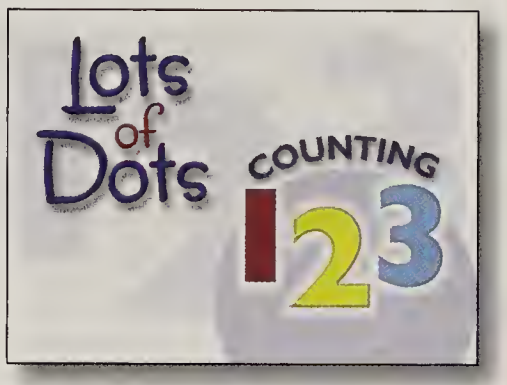
This learning tool is an exciting raised-line coloring book designed for future large print and braille readers. It facilitates braille character recognition through repetitive activities. Each letter of the alphabet has two pages:

- The first page features a jumbo braille cell, with six raised-line open circles.
- The second page shows the letter and a tactile graphic depiction of an easy-to-find object that begins with that letter.

Attached to the inside front cover is a plastic stencil of the jumbo cell that can be folded over the blank pages, allowing the student to practice the braille cell for that letter.

Recommended ages: Preschool and up.

Lots of Dots: Learning My ABC's: **1-10000-00.....$29.00**



Lots of Dots: Counting 1 2 3

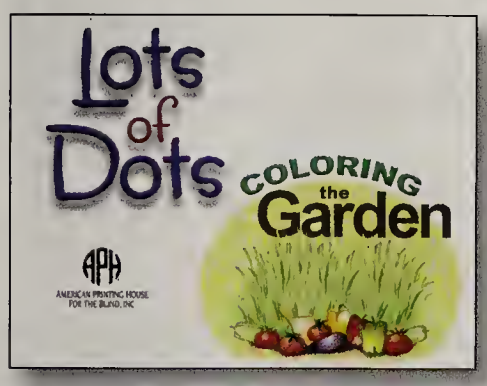
This book presents numbers 0-30 and then integers of 10 up to 90. Each number has two pages:

- The first page features two or three large braille cells. The number is shown with its braille equivalent, along with reduced-size cells showing which dots need to be colored to complete the number.
- The second page shows the number and tactile graphic depictions of easy-to-find objects that begin with the same letter as the number, i.e., five fans, seventeen seashells.

Attached to the inside front cover is a plastic stencil of three large braille cells. This can be folded over the blank pages, allowing the child to practice the braille cell for the number by tracing or by using the accompanying foam braille chips. This book uses uncontracted braille.

Recommended ages: Pre-K and up.

Lots of Dots: Counting 1 2 3: **1-10001-00.....$32.00**



Lots of Dots: Coloring the Garden

This book presents a variety of fruits, vegetables, and herbs, and introduces picture building. The book begins with an empty garden. Each page adds a new feature, i.e., clouds, rain, seeds, and plants. Once the garden has grown, a new garden item is introduced on each page for the child to color. The enrichment activities are simple recipes that the child and parents/siblings/teachers can do together. The activities present daily living skills, such as planting, organizing, and food preparation.

This book uses uncontracted and contracted braille, where applicable.

Recommended ages: Preschool and up.

Lots of Dots: Coloring the Garden: **1-10002-00.....$24.00**

BRAILLE ALPHABET AND NUMBERS
USED BY THE BLIND

Close your eyes and read this with your fingers

Capital sign

Number sign

The Braille System is comprised of signs formed by the use of all the possible combinations of 6 dots numbered and arranged thus 1 4 2 5 3 6

Letters are capitalized by prefixing dot 6. The first ten letters preceded by the number sign represent numbers. Punctuation marks are formed in the lower part of the cell.

In addition to ordinary print the Braille System provides for the writing of foreign languages, musical scores, mathematical and chemical notations, and other technical matter

Abacus Basic Competency: A Counting Method

Teaches children and adults abacus skills in the four basic math operations. This abacus instructional system uses the Counting Method instead of the traditional indirect method.

Advantages include:

- Simple method comparable to the way young sighted children count and add by counting things one at a time, as in counting on fingers.
- Minimum number of rules must be learned.
- Speed in using the abacus is not lessened with this method. Accuracy is increased, frustration is eliminated.

State Maps Collection

Each State Maps Collection is a set of embossed and printed outline maps for a region of the United States. Use as starting points for lessons on individual states. Add to these images with tracing wheel lines, craft ink, glued-on textures, etc. Add braille labels as needed. Because of their printed outlines, these maps are also useful to low vision readers.

Three printed/embossed copies of each state are provided in a kit, as well as a regional map showing all the states in that collection in relation to each other. Also included is a set of print-only maps that can be copied or used as masters for "swell paper" tactile graphics.

The four State Maps Collections are:

Northeast Region: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia

Southeast Region: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Puerto Rico and the U.S. Virgin Islands, South Carolina, Tennessee

Central Region: Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Texas, Wisconsin

Western Region: Alaska, Arizona, California, Colorado, Hawaii/Guam, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming

Bold lines are printed and embossed.

This tool for low vision readers can be placed over text to highlight, eliminate glare, and promote maximum contrast. The guide provides a black reference line that helps the reader keep his or her place on the page. The guide is 10 inches long, but can be cut to any size and three-hole punched for placement in a binder. Each pink or yellow guide comes in a vinyl protective pouch.

Bright Line Reading Guide:

Yellow (2-pack): 1-03060-00.....$7.50

Pink (2-pack): 1-03061-00.....$7.50

GlaReducers

GlaReducers dramatically reduce glare by filtering out ultraviolet and blue light. Sheets are designed to be placed over a page, making it more readable for nearly everyone, especially persons with low vision.

Features:

- Reduce glare
- Enhance contrast

Sheets are 8.5 x 11 inch translucent vinyl and can be 3-hole punched and inserted in a binder.

Pack includes 2 yellow and 2 pink sheets.

GlaReducers (4-pack):

Braille+ Mobile Manager Extended Warranties Now Available!

During the first year APH's popular Braille+ was sold, a one-year warranty against manufacturer defects plus free downloads for all software updates was included at no additional charge. Many customers have requested extended agreements and we have listened to you! An extended warranties form can be found on next page for your convenience. The serial number, found on back of unit or in status menu, is the controlling feature to extend these agreements. Please be certain to include it when placing your order.

Braille+ One-Year Hardware Maintenance Agreement (HMA)

The annual HMA protects you from unanticipated maintenance cost. Repairs are covered, including parts and labor, for 12 months beyond the first year-limited warranty that was included with your initial purchase. The HMA must be purchased while the product is covered under the standard warranty. Batteries and other accessories are not covered by the HMA.

Braille+ One-Year Software Maintenance Agreement (SMA) Download

The annual Software Maintenance Agreement (SMA) gives Braille+ owners unlimited software downloads for a period of one year. This gives you uninterrupted additional coverage beyond the standard first year of software updates included with your initial purchase. The extended SMA must be purchased while covered under the standard or existing SMA.

Optional SMA update on a miniSD™ Card

After purchasing the one-year SMA, you may prefer to install updates using a miniSD™ card. This is available to you for an additional fee of $50.00 for each update supplied on a miniSD card. It must be purchased while covered under the standard or existing SMA.

Braille+ One-Time Software Update

The one-time software download allows those without the annual software agreement to upgrade their software to the most recent release. You will only need to consider this if you do not extend your option to purchase the standard SMA and then want the updates later.

IMPORTANT:

Please take a moment to consider the benefits of continuing your maintenance agreements as we progress with future enhancements. **IT IS IMPORTANT TO ACT NOW BEFORE THE END OF YOUR FIRST YEAR OF BRAILLE+ OWNERSHIP.** Complete the Maintenance Agreement Order Form or call APH customer service. Be certain to have your Braille+ serial number available when purchasing. If you have any questions please call customer service at 800-223-1839 or email us at cs@aph.org.

Note: The HMA and SMA must be purchased within one year of purchasing the Braille+.

Optional Items:

One-Year Hardware Maintenance Agreement (HMA): 1-07460-00.....$125.00
One-Year Software Maintenance Agreement (SMA) Download: 1-07462-00.....$75.00
SMA update on a miniSD™ Card (after purchasing SMA Download): 1-07463-00.....$50.00
Braille+ One-Time Software Update: 1-07464-00.....$200.00

Note: An SMA download will be available as soon as possible following your purchase, please allow 3-5 working days for the implementation.

Braille+ QWERTY Docking Station Limited Warranty Information and Hardware Maintenance Agreement (HMA)

The Braille+ QWERTY Docking Station includes a one-year warranty against manufacturer defects in workmanship and materials under normal use for a period of one year from the date of purchase. This warranty does not include any third party hardware or software used in conjunction with this docking station.

Additionally, the HMA does not include the following:

- Defects or damage from misuse: use other than the suggested manner, accident, neglect, improper operation, maintenance, installation, adjustment, modifications, food or liquid spills.
- Damage from scratches incurred from normal use
- Damage incurred in shipping and improper packaging

There are no other expressed or implied warranties for the Braille+ QWERTY Docking Station.

Braille+ QWERTY Docking Station Extended One-Year Hardware Maintenance Agreement (HMA)

The Braille+ QWERTY Docking Station annual HMA protects you from unanticipated maintenance cost. Repairs are covered, including parts and labor, for 12 months beyond the one-year limited warranty that was included with your initial purchase. **The HMA must be purchased while the product is covered under the standard warranty.** Batteries and other accessories are not covered by the HMA.

Braille+ QWERTY Docking Station Inspection Service

For Braille+ QWERTY Docking Station owners who want to purchase an additional one-year HMA after the current warranty has expired, APH offers a post-warranty HMA Inspection. Simply send us your docking station for a hardware system check. If the manufacturer's requirements are met, you may purchase an additional one-year HMA. The service fee covers return shipping and the unit testing. Batteries are not covered under any HMA.

If your warranty has not expired, you may purchase an additional HMA without inspection.

IMPORTANT:

Please take a moment to consider the benefits of continuing your maintenance agreements as we progress with future enhancements. **IT IS IMPORTANT TO ACT NOW BEFORE THE END OF YOUR FIRST YEAR OF BRAILLE+ QWERTY DOCKING STATION OWNERSHIP.** Contact APH customer service, be certain to have your Docking Station serial number and date of purchase information available. If a return is required, APH will supply you with shipping instructions. The customer will be responsible for shipping and insurance costs associated with the return to APH. Use Refreshabraille 18 to Access Other Equipment

Refreshabraille, like a computer's monitor and keyboard, is a device designed to be used with other equipment. Refreshabraille provides the display and keyboard for that other device. Therefore, you must connect Refreshabraille to the device you plan to use. Whether that device is a cell phone, PC, or APH's own Braille+ Mobile Manager, every effort has been made to make the process simple, reliable, and trouble-free. Be aware, however that the device you plan to use must have software running on it that has the ability to communicate with a braille display. In the case of your PC, that software is the screen reader program, like JAWS® or Window-Eyes®. For phones and off-the-shelf PDAs, screen reader software like Mobile Speak® or Talks® is required. Accessible devices like Icon and Braille+ already have software (as of version 2.0) that integrates with the display.

Cursor Routing

The 18 cursor routing keys are located immediately below the braille cells. Each braille cell has its own routing key. These keys work in conjunction with the screen reader or portable device (like Braille+) to move the editing cursor to the place in the document that corresponds with what appears on the display.

Braille Input Keys

The braille input keys are arranged with the traditional six keys for dots 1-6 in a line, then the dot 7 key, space key, and dot 8 key below them. These keys may be used to enter text into the device that the display is connected to.

Joy Stick

The joystick is located between braille input keys for dot 1 and dot 4. It is a five-position switch, and depending on the software you use with the device, the joystick usually acts like the four arrow keys and select.

Dimensions

The Refreshabraille 18 measures 5.12 x 3.54 x 0.98 inches.

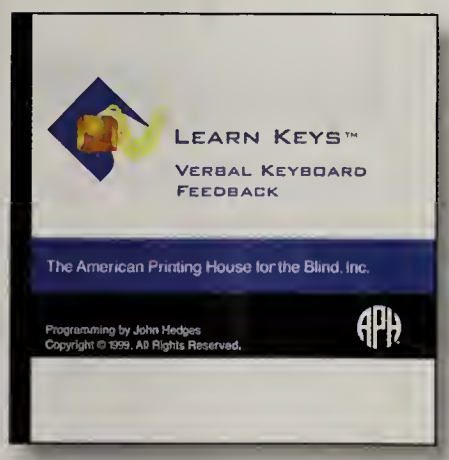
* Requires an additional 700 MB of hard disk space for high-quality Enhanced Voicing. Enhanced Voicing sounds more human than earlier synthetic speech.



Learn Keys™: Verbal Keyboard Feedback

PC keyboard exploration and announcement program gives you human speech feedback.

Works with several versions of Windows® and with a variety of keyboard types. Uses your computer's sound card and speakers. Can speak any key and display the key name on screen. Provides keyboard feedback while other programs are running.

Included: Program with on-line Help and documentation on CD-ROM; quick start in braille and large print.

Note: *Learn Keys is not a screen reader – it speaks keystrokes.*

Talking Typer™ for Windows®

Computer keyboarding and typing training software that speaks and displays lessons on screen. Includes drills, practice, and typing games. Adjustable to the student's level of skill and sight impairment.

Options for Ordering: All three options noted below contain the latest version of the Talking Typer program. The only difference is the higher or lower quality of synthetic speech.

- **Talking Typer (with Enhanced Voicing)** uses new computer voices that sound closer to human speech. This version provides a higher measure of intelligibility and less fatigue for audio users.
- **Talking Typer (without Enhanced Voicing)** is lower cost and is available by Digital Download only.
- **Talking Typer Upgrade** will allow you to add Enhanced Voicing to any version you currently own. The Upgrade will also upgrade your copy of the Talking Typer program, if needed.

Recommended ages: 6 years and up.

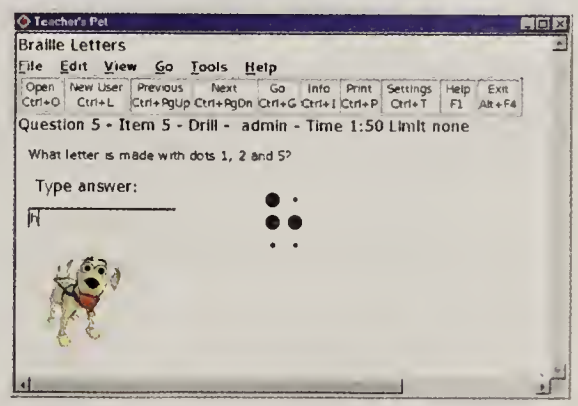
Teacher's Pet™

This software can be used by either teachers or parents to create accessible drills, practice exercises, or tests for students who are blind or visually impaired. This program allows the creation of both audio and large print tests and can record test sessions to track student progress. Administers and records sessions and allows creation of an editable database of questions from which to create drills and tests.

Recommended for all ages (dictated by the tests created).

Teacher's Pet accepts several types of questions including:

- Information
- Fill in the Blank
- True/False
- Matching by Number or Letter
- Multiple Choice by Number or Letter
- Essay *(cannot evaluate responses)*



Questions can be random, sequenced, or tied to a student's ability.

Verbal View™ from APH is a series of comprehensive software tutorials for students and professionals who are visually impaired or blind.

Verbal View™ of Windows® XP

Learn to use Windows XP with this comprehensive tutorial designed for students and professionals. Unlike most computer tutorials which assume a familiarity with Windows graphics and mouse techniques, Verbal View of Windows XP is written for the keyboard user who is blind or visually impaired.

Features:

- Covers nearly every aspect of Windows XP, with extensive verbal descriptions of new features and programs
- Simple enough for the first-time computer user
- Technical terms are kept to a minimum
- Graphic components are verbally described with examples and comparisons to everyday items
- Keyboard and keyboard shortcuts are emphasized
- Single keyboard command introduced per chapter for easy review
- Tutorial is in DAISY 3.0 full-text, full-audio format and is accessed through APH's special DAISY reading program, Book Wizard Reader™

Verbal View of Windows XP: D-10500-00.....$50.00

Verbal View™ of Vista®

A comprehensive tutorial on using Microsoft Windows Vista from the viewpoint of a blind or partially sighted student or professional. It covers nearly every aspect of Windows Vista, and presents this material from the keyboard user's perspective.

Basic knowledge of Windows is required. This tutorial comes on CD-ROM in DAISY 3.0 full-text, full-audio format, and also includes versions in Microsoft Word®, HTML, contracted braille, and a text file.

Verbal View of Vista: D-10517-00.....$50.00

Verbal View™ of Word®

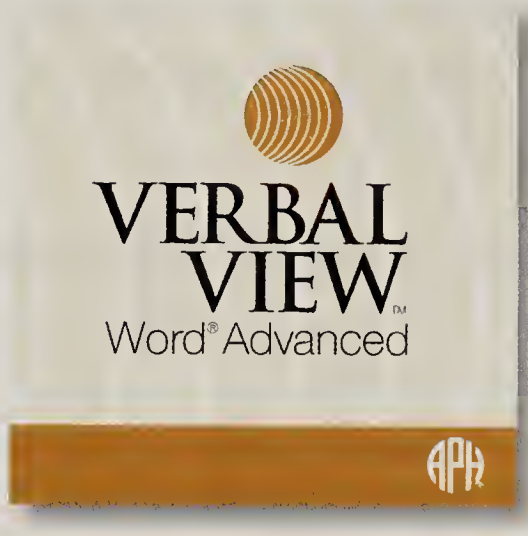
Verbal View of Word takes special care to focus on aspects of Microsoft Word that are not obvious to the blind user from the normal Word documentation. Instead of focusing on the mouse and visual cues, this tutorial lets the user know how the keyboard and screen reader can be used to accomplish word processing tasks efficiently and elegantly.

Verbal View of Word: D-10510-00.....$50.00

Verbal View™ of Word® Advanced

Verbal View of Word Advanced goes beyond the basics and gives the blind writer the tools needed to perform nearly any editing, collaboration, or publishing task with Microsoft Word.

Verbal View of Word Advanced: D-10511-00.....$50.00



Verbal View™ of the Net and Web

Verbal View of the Net and Web explains how to access information on the internet and teaches accessibility features of Microsoft Internet Explorer®, features of various search engines, and using web-based data. This tutorial covers such topics as:

- Connecting to the internet and following links on web pages
- Reading web pages that may seem inaccessible
- Sending and receiving e-mail and accessing intranets
- And much more!

Basic knowledge of Windows is required, but not experience with the net or the web. The Verbal View series emphasizes the use of the keyboard and some topics omitted from most books are discussed in length because they greatly benefit blind users. This tutorial comes on CD-ROM in DAISY 3.0 full-text, full-audio format, and also includes versions in Microsoft Word, HTML, contracted braille, and a text file.

Verbal View of Net and Web: D-10512-00.....$50.00

Verbal View™ of Web Searches

Verbal View of Web Searches builds on the information in Verbal View of the Net and Web by focusing on the benefits and uses of the Google® search engine and why users prefer it.

Contents:

Part 1: The Search of Web Pages:

- Find items of interest and introduction to Google
- Google index and accessibility
- Best ways to conduct searches
- Other searches

Part 2: The Search for Important Information:

- Google Directory
- Google Alerts and Google Answers
- Search options
- Tidbits and resources

Verbal View of Web Searches: D-10514-00.....$50.00

Verbal View™ of Web Documents

This tutorial gives computer users the tools to work effectively with documents stored on the world wide web.

The prerequisite tutorial to the Verbal View of Web Documents tutorial, Verbal View of the Net and Web, covers the internet and the web and describes various ways to connect to the net. Verbal View of Web Documents tutorial focuses more closely to the web.

Typically, computer users rely on the web browser software to locate, read, and save documents located on the web. This tutorial covers in detail retrieving and using documents with common browsers such as Internet Explorer® and Firefox®.

Verbal View of Web Documents: D-10513-00.....$50.00

Verbal View™ of Online Mail

This tutorial builds on the information in Verbal View of the Net and Web, explaining how to use your computer to send email.

Topics:

- Microsoft Outlook Express
- Mail messages
- Contact information
- Mail options

Verbal View of Online Mail: D-10515-00.....$50.00

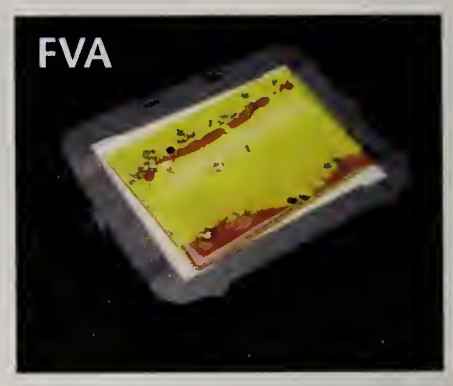
Swirly Mat™ Sets



Mini-Lite Box sold separately

Durable, non-toxic Swirly Mats come in two sets: **Cortical Visual Impairment (CVI)** and **Functional Vision Assessment (FVA)**. The mats in the CVI set are less complex and are designed for students with cortical vision impairments. The mats in the FVA set are more complex and are useful for conducting functional vision assessments. Both mats can be used for locating, tracking, color discrimination, etc. Try them with APH's Mini-Lite Box (sold separately) for a different effect. Each set includes white background mat, print and braille instructions, and a plastic carrying case.

Swirly Mat Set:
CVI: 1-08153-00.....$49.00
FVA: 1-08154-00.....$49.00

WARNING: Choking Hazard — Small Parts. Not intended for children ages 5 and under without adult supervision.

Note: *Always provide supervision when using Swirly Mats with young children. Mats are completely sealed; however, in the event of a rupture, small pieces inside the mats may be a choking hazard. Liquids are non-toxic but will stain. Use caution.*

Mini-Lite Box

APH's Mini-Lite Box is smaller, lighter, and more affordable than its full-size cousin, the Light Box. The Mini-Lite box is usable at a student's desk or on his/her lap. Individual items from Light Box Materials Levels I and II *(see next page)* can be used with the Mini-Lite Box.

Features:

- Dimming control
- Built-in combination handle/tilting stand with 11 positioning angles
- Child safe case
- Low battery audio signal
- Ledges hold overlays in place
- Operates 3-4 hours on included rechargeable batteries or can be plugged in with included AC adapter

An optional Mini-Lite Box Carrying Case is available. It is made of a tough canvas-like nylon and has roomy pockets to hold overlays and other materials.

Also available separately are Mini-Lite Box Transparent Overlays. Set includes one clear, four color, and a sheet of clear, flexible plastic. The color overlays may be used to promote light awareness; improve contrast and visibility; and introduce color matching. The clear overlay may be used with black and color markers. The flexible overlay offers a slip-resistant surface for acrylic materials.

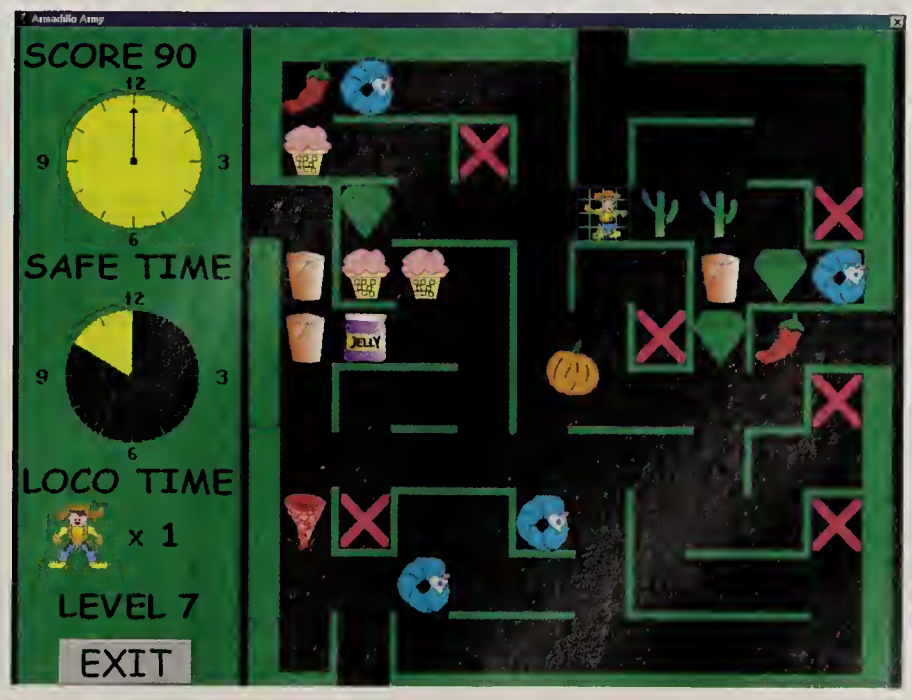
Armadillo Army Software

This arcade-style educational game is created especially for players with low vision. In Armadillo Army™, the main character, Tex, navigates a series of increasingly difficult mazes, picking up various items along the way. At the same time, he must evade a band of armadillos traveling through the maze with him. The game contains bright, large graphics, as well as meaningful sound elements.

Armadillo Army gives low-vision students practice with lateral eye movements, vertical eye movements, searching skills, timing skills, visual discrimination skills, peripheral detection skills, eccentric viewing skills, and eye-hand coordination. Students who are blind can play the game using its sound cues.

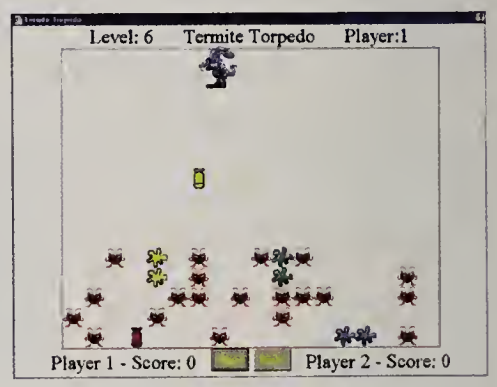
Armadillo Army Software:
CD-ROM: D-03400-00.....$49.00
Digital Download: D-03400-ED.....$39.00



Termite Torpedo™ Software

An arcade-style educational game designed especially for low vision users. Termites are eating their way through Woodville! Only you can save the city by clearing the playing field of 12 levels of termites!

Termite Torpedo gives low-vision students practice in the visual skills of locating, fixating, tracking, aligning, and following.



Features:

- Bright, high-contrast colors for game elements
- Full audio accompaniment, including directional information, allows use by players who are totally blind

Termite Torpedo Software:

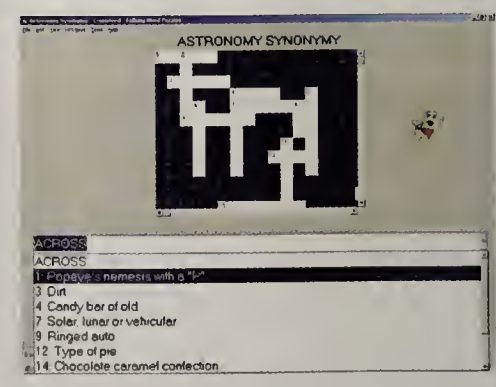
Digital Download: D-00300-ED.....$39.00

Talking Word Puzzles® Software

Lets the user create or solve hidden word and crossword puzzles in large print and with optional high-quality speech feedback. As the player navigates through the puzzle, the program announces the contents of that square. Speech feedback in hidden word puzzles also indicates marked and unmarked letters, valid and invalid words, word lists or clues to words, and motivating phrases. Speech can be turned off.



Talking Word Puzzles™ makes it easy to create your own puzzles. You make up the word list, and the software creates the puzzle for you, entering the words into one of several puzzle formats.

Recommended for all ages (dictated by the puzzles created).

Scattered Crowns: Tactile Attribute Game

A fun, versatile board game that encourages young children, especially those with visual impairments or blindness, to develop tactile skills. As players search for crowns with specific attributes: band texture (smooth, rough, or striped), number of jewels (1, 2, or 3), and number of points (3, 4, or 5), they will practice:

- Texture/shape/size discrimination
- Tactile memory
- Systematic searching skills
- Spatial concepts (left, right, above, below, row, column, etc.)

Other concepts and skills practiced during game play include counting skills, turn-taking, sorting/organizing, and social interaction skills. The game is conducive to playing classic "concentration" games using the crown pieces or user-constructed matching game pieces (e.g., basic shapes, braille words/letters, etc.).

Includes:

- Visual/tactile game board

History in the Making: The Story of the American Printing House for the Blind, 1858-2008

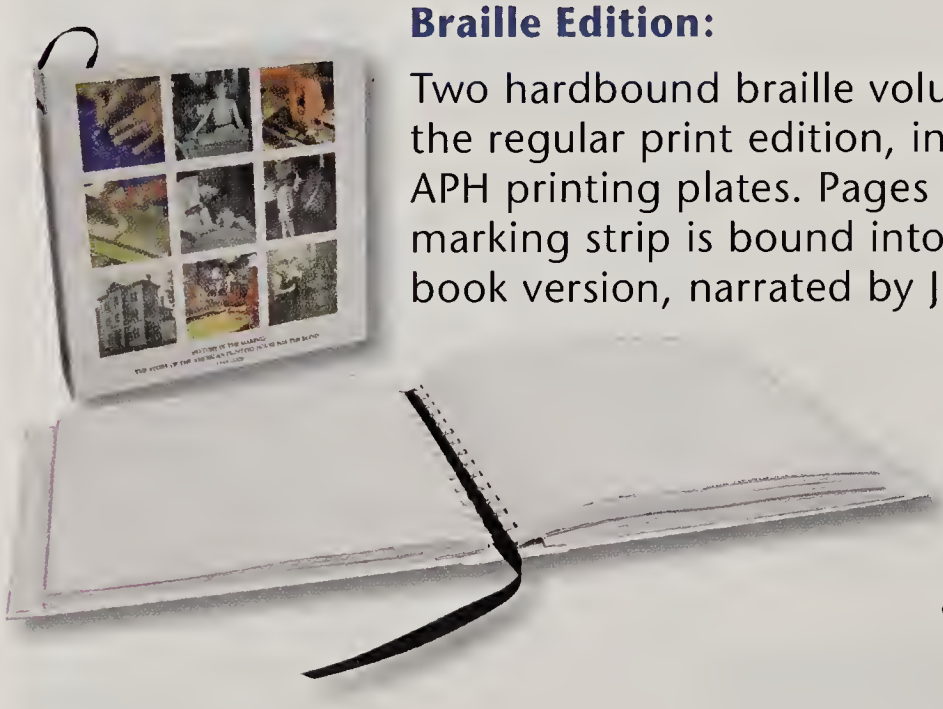
A richly illustrated book celebrating the 150th anniversary of the American Printing House for the Blind, *History in the Making* explores how an organization with one printing press in borrowed space in a school basement grew to occupy most of a city block and became a national icon for generations of students, teachers, and adult consumers.

APH eventually grew to become the world's largest nonprofit organization creating educational, workplace, and independent living products and services for people who are visually impaired. APH's role expanded far beyond the creation of tactile books, including the manufacture of large print and audio materials; educational programs, kits, and supplies; and tools for daily living.

History in the Making places the birth and development of APH into the context of changing attitudes about people with disabilities. This book is filled with inspiring stories: the blind promoter from Mississippi, pioneer educators and students who struggled to develop standardized methods of reading and writing, and managers and workers who invented innovative methods to make the written word available to those who could not see.

Regular Print Edition:

Packed with rare details about the origins of APH, this book features rich photography, reproductions of tactile pages embossed from vintage printing plates, and an accessible audio book version on CD read by APH narrator Jack Fox. This 180-page hardbound book was designed by nationally recognized graphic artist Julius Friedman and features color photography by Geoffrey Carr.



Braille Edition:

Two hardbound braille volumes with color covers contain the text of the regular print edition, including the pages embossed from vintage APH printing plates. Pages are bound with metal rings and a cloth page marking strip is bound into each volume. The CD containing the audio book version, narrated by Jack Fox, is included.

Note: Through an agreement with the publisher, this book will also be marketed to regional and national bookstores, chains and libraries, internet booksellers, and through other promotional activities.

What Is the Federal Quota Program?

The federal Act to Promote the Education of the Blind provides funds for adapted educational materials for eligible students. These federal funds are available to organizations in each state to provide materials for students working at less than college level. The organizations may be state departments of education, residential schools, or agencies for the blind.

Is My Child Eligible for Federal Quota?

To be eligible for materials purchased with Federal Quota funds, students MUST meet these requirements:

- meet the definition of blindness – "central visual acuity of 20/200 or less in the better eye with best correction; a peripheral field so contracted that the widest diameter of such field subtends an angular distance no greater than 20 degrees; or visual performance reduced by a brain injury or dysfunction when visual function meets the definition of blindness as determined by an eye care specialist or neurologist."
- "be enrolled in a formally organized public or private, nonprofit educational program of less than college level"
- be enrolled with the registering school or agency on the first Monday in January

How Does the Quota Program Work?

A national census taken each January by APH determines the number of students eligible to receive materials purchased using Federal Quota funds. The federal money allotted for Quota each year is then divided among the participating schools and agencies based on the number of students registered. The money does not go to the students themselves, but is credited to Federal Quota accounts administered by Ex Officio Trustees who oversee the funds for their school or agency. The Trustee oversees which APH products to purchase with Quota money to best serve all visually impaired students in their system.

Who Are the Ex Officio Trustees?

Each organization participating in the Federal Quota Program has a designated Ex Officio Trustee entrusted with administering the program within his or her system. Each state, and territory, and possession of the U.S. has at least one Ex Officio Trustee.

Is My Child Registered for Federal Quota?

There are several ways to find out if your child is registered.

- Ask at your Individualized Educational Program (IEP) or Individualized Family Services Plan (IFSP) meeting. Your service provider should be aware that Federal Quota funds are available, and can tell you if your child qualifies.
- Contact the state department of education (if your child attends a public or private school) or the state residential school for the blind.
- Contact your Ex Officio Trustee for more information. To learn the name of the Ex Officio Trustee serving your organization, check the APH website at **www.aph.org/fedquotpgm/trustees.html** and then click on your state, or contact the APH Field Services Department at **800-223-1839**, extension **257**.
